

MEGHAV MEHTA
Executive Director, Deepak Phenolics Limited

Meghav's Mehta is a Mechanical Engineering from the Rochester Institute of Technology (New York, USA) with a specialization in Material Science Technology and Alternative Energy. After graduation, Meghav moved over to Deepak Group in 2009, where he has lead Business Development and Project Management. He has successfully initiated and completed multi-million-dollar EPCm projects and operationalized Deepak Phenolics, a wholly owned subsidiary of Deepak Nitrite Ltd. Currently, Meghav heads Strategy at Deepak Phenolics, where he focuses on Organizational and People development.

He has continually initiated and spearheaded multiple digital transformation initiatives at Deepak Group. His real passion lies in understanding how technology and culture interact, especially at the workplace. Through his entrepreneurial efforts in the company, he envisages India to be a global leader in innovation and have reduced dependency on imports.
