

Miranda Zhang

Senior Editor – Petrochemical Asia
S&P Global Platts

Miranda Zhang is currently responsible for PTA and polypropylene, as well as leading the research on recycled-PET in Asia. She has previously covered Asian polyester Chain.

She joined S&P Global Platts in July 2018 from ExxonMobil, where she had five years of manufacturing experience in polymers and olefins sites including leading projects to optimize plant safety, reliability, product quality and profitability.

She graduated with a Bachelor degree in Chemical Engineering from National University of Singapore.
